Leading and Managing Remote Teams Amid the COVID-19 Crisis

3-Hour Leadership Workshop / Webinar

The success that your organization achieves in the near future will be directly related to your ability to lead and manage your teams in this unique and challenging environment. A strategic investment in the development of the skills and competencies that are critical now – while creating a plan for leading and managing your remote workforce – creates positive momentum, enhances engagement and improves productivity. In this session, we will share best practices and tips for achieving improvements in:

- Problem Solving:** Reacting and responding skillfully to changing and sometimes conflicting or unexpected circumstances and demands.
- Adaptability:** Learning, innovating, and recovering from difficult situations, changes, and challenges.
- Change Management:** Effectively modifying your thinking, attitude, behavior, and comfort zone to promote integration, accommodation, stability, and focus to achieve performance objectives.
- Communication:** Recognizing that your team members may be working remotely in unique and challenging situations, and providing clear, effective, ongoing communication and relationship management.
- Resiliency:** Successfully managing stress, remaining effective and efficient, and bouncing back amidst devastating challenges and obstacles.

Our facilitators will help your leaders identify and reach consensus on their top challenges in these areas and create the best approach for resolving them.

NEW WORKSHOPS AVAILABLE NOW

Surviving and Thriving in Today's VUCA Environment

2-Hour Workshop / Webinar

For staff and management. Adaptability may be a personal edge or a challenge for you, but it is an absolutely necessary skill to develop and practice in the current environment. Considering the increasingly rapid pace of technological change and the impact of our current crisis, it is necessary to be able to survive – and thrive – in an environment marked by **Volatility, Uncertainty, Complexity** and **Ambiguity**. This interactive session provides a clear definition of VUCA and offers tips, tools and techniques to succeed in today's unique environment.

This workshop closes with an exercise in which participants discuss and commit to an action plan for thriving in today's VUCA environment.

-  **What is VUCA and How am I Impacted?**
-  **Exercise: What Aspects of VUCA am I Dealing with Right Now?**
-  **Tactics for Thriving in Today's Environment**
-  **Action Plan for Thriving in VUCA**
