

Your path to peak performance.

“Drawing on 30 years of enterprise knowledge and critical thinking, we deliver strategic insights and organizational impact to your most important resource—your people. We immerse ourselves in your company, study processes, connect with your teams, collect and analyze data, and build an insights-driven strategy with a clear and actionable path to long-term growth.”

—MONICA GOULD
Founder and President

When you imagine the future of your company...

- Are there factors disrupting your success?
- Is your talent pipeline robust?
- Are you challenged by low engagement or high turnover?
- Is there an economically viable ten-year plan?
- Do you see opportunity for increased revenue?

Helping to build stronger businesses with engaged and equipped teams is our greatest passion.

IDENTIFY *and* SOLVE

The Strategic Consulting Partners (SCP) team identifies and solves big problems—known and unknown. Think of us as organizational change agents. We use proprietary tools to assess the atmosphere of your work culture; measure and monitor the existing business environment; discover business patterns of growth, discontent, and talent retention; and use data to guide the highest and best use of every asset for every stakeholder.

PREPARE *for the* UNPREDICTABLE

For over 30 years, SCP professionals have been leading companies through transitions, disruptions, and evolving workforce dynamics. Our superpower is diagnostic assessments + strategic planning to ensure a stronger, more sustainable path forward for your company. A future that invites collaboration, innovation, and a spirit of optimism and purpose. A future rooted in operational resilience.

PARTNERSHIPS MATTER

“Strategic Consulting Partners has become like a member of our organization. They’re experienced, cooperative, and always available when we reach out. They are great partners with the airport authority. An unexpected benefit has been the ongoing input and effort on their part. We look forward to working with them as we go through the second phase of strategic planning.”

—TIM EDWARDS

Susquehanna Area Regional Airport Authority

“It’s hard to overstate the importance of strategic workforce planning, especially for one of the fastest-growing counties in Pennsylvania. We needed Monica Gould and her SCP team to help Cumberland Area Economic Development Corporation (CAEDC) align our workforce needs and talent pipeline with our future vision of the organization. SCP delivered a clear and comprehensive path to reach organizational excellence beginning with an overall assessment. This exercise evaluated the mission, strategic direction of the organization, leadership and staff composition, and employee competencies. By partnering with SCP, the outcome is an organizational structure that is scalable and will carry CAEDC into a very bright future.”

—AMEY SGRIGNOLI

President & CEO, Belco Community Credit Union; CAEDC Board Member

Conducting strategic planning, leadership development, and organizational capacity building for some of America’s most respected brands, Monica Gould and SCP help you reach peak performance and navigate the unpredictability in a global business environment.

A FULL SUITE of CORPORATE SERVICES

SCP provides a full suite of executive, management, and organizational services to deliver tangible solutions and systems. We strengthen organizational efficiency, prepare for uncertainties in the workforce, mitigate long-term threats, and guide and alleviate the new skills shortage for corporations and businesses.

Designed for maximum impact within a highly productive near-term timeframe, our services go beyond leadership coaching. As a management and training consultancy, we work closely with the C-suite and management, and touch every layer of a company—keeping the unmatched value of your people first and foremost.

Call on us for:

- Strategic planning
- Organizational development, assessments, and health & wellness
